The 3 C's

1. Confidential

Discussions on sexuality start & stop with confidentiality. We are committed to keeping anything shared today confidential and we encourage you to do the same.

2. Considerate

We encourage everyone to be considerate of each others stories and experiences. We all face different circumstances in life and need to be considerate if other men's stories are vastly different from our own.

3. Church

Being a part of a solid bible believing church is essential for a christian. However, Today is not the day to discuss church issues. This meeting is about focusing on our own life and it's struggles not the issues of our churches.
